

■ Date Sheet: Mounting support for 2 terminal bars 10, 16 mm<sup>2</sup>

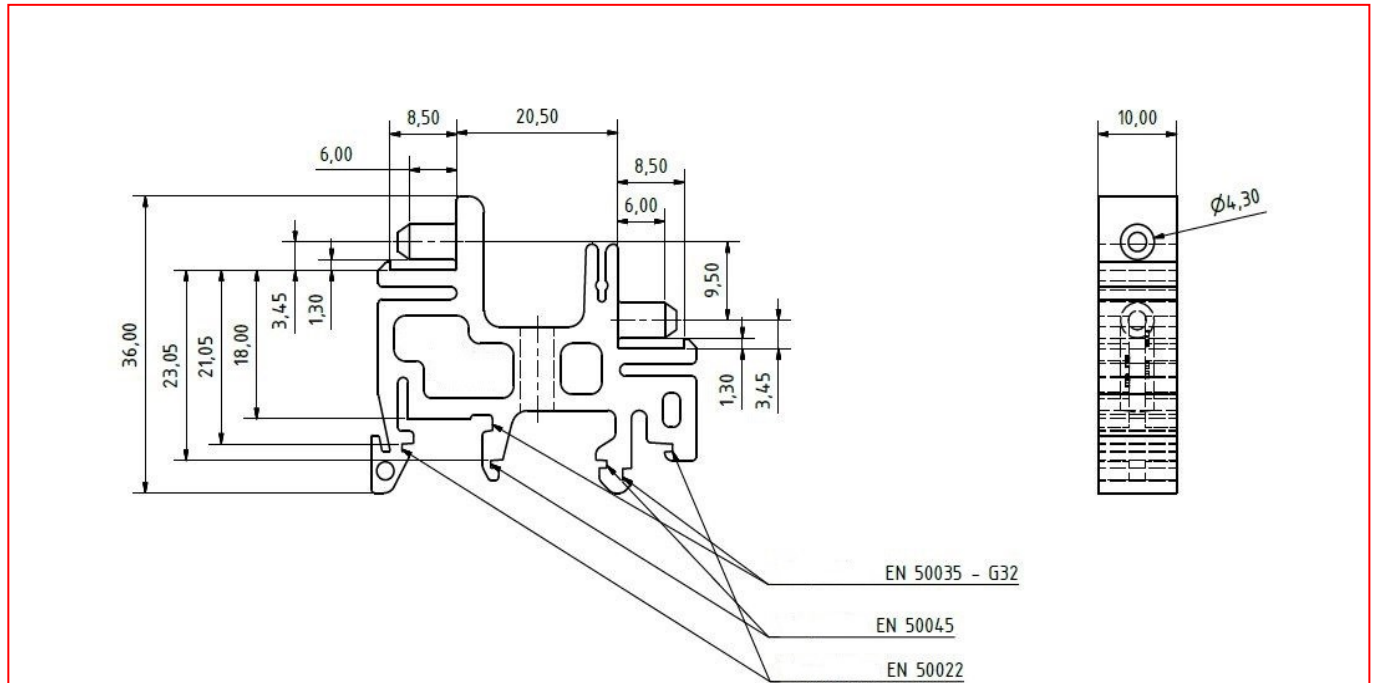

■ SCHRACK-INFO

- Mounting element for terminal bars
- Snap or. screwed
- Insulating part enables mounting of two pieces of brass clamping rails

■ Technical data

|                               |                                       |
|-------------------------------|---------------------------------------|
| Material:                     | Insulated conductor for terminal bars |
| Colour:                       | Electric gray RAL 7035                |
| For supporting rail:          | EN 50035—G32                          |
|                               | EN 50045                              |
|                               | EN 50022                              |
| Glowing wire test:            | 960°C                                 |
| Flammability according UL 94: | V-0 from 0,8 to 1,6                   |
| Service temperature: max.     | to 120°C                              |
